History: This message has been replied to.

I was waiting to hear back from Mr. Lawrence first before scheduling a date.

Since you cannot meet in Coeur d'Alene on the 23rd, my suggestion is to have this meeting on Tuesday, February 21, in Coeur d'Alene. Although the second choice for the others, they are available on that date.

My thinking is that the meeting will last for no longer than 3 hours. We can start at 10 a.m. which should give time for the Seattle folks to fly in that morning, and end at 1:00 p.m.

Please let me know if you CANNOT be in Coeur d'Alene on February 21 ASAP. If all O.K., I'll find a place to meet, and let you know the particulars by this Friday.

I responded in the 15th that I cannot be in CDA on the 23rd but could meet on the 23rd in Seattle in the morning. I could be in CDA (or Seattle) on the 21st. Bruce Sheppard indicated on the 13th that he is available either day. See attached.

Tamara, what have you decided?

Gentlemen:

IDEQ, EPA and Parametrix (EPA's EE/CA oversight contractor) just talked about our collective comments on the August 2005 revised EE/CA for Wallace Yard and Spur Lines prepared by MFG. We hope to have all comments together and to you within the next couple of weeks.

Once we submit the comments and prior to any work being done on another revised EE/CA, we would like to have a face-to-face meeting to discuss our comments and concerns, and agreeing on a path forward. In attendance would be me, Cliff Villa from Region 10's Office of General Counsel, Nick Zilka from IDEQ, Curt Fransen from Idaho's Attorney General's office, and Brandon Ball and Marko Adzic from Parametrix.

Our first choice for a date would be Thursday, February 23.

Our second choice for a date would be Tuesday, February 21.

I would appreciate you letting me know if you could or could not attend on either date. We were thinking of holding the meeting in Coeur d'Alene.
